

# *Georgia FC Silverbacks*

*Introducing The Academy...*

# Academy Key Concepts...

- It is the Academy's primary aim to make soccer ***fun*** so that the vital ingredient of enjoyment is achieved at all times.
- Georgia FC expects players to ***arrive at practice on time, ready to play and listen*** to the coaching staff.
- ***Concentrating is a key component*** when players are under instruction at games and practice.
- At a young age players ***play in a number of positions*** to improve their all around understanding and knowledge of the game
- Teams will be chosen on a ***week to week basis***.
- ***The Club and the Academy staff have the ability to move players on a game by game basis as they wish to enhance a player's development,*** This can happen with promotion or relegation and will encourage players to always give 100% effort when practicing and playing in games.
- If players are selected for one particular team, this is not a guarantee that this decision is a permanent one
- All coaching should be ***left to the coaching staff***, and parents should not offer advice to players during games or practice. Parents should refrain from giving any tactical feedback to players regarding performance unless they have consulted with the coach as they may give contradictory information or over repeat what the coach has already said which can lead to confusion or frustration for the player.
